

Help to enhance

SCIENCE & MATH EDUCATION

in our local communities

Lawrence Livermore National Laboratory prides itself on its numerous educational partnerships and programs to help train the next generation of scientists and engineers.

These programs depend on hundreds of volunteers who serve as instructors, speakers, role models and in other capacities.

If you would like to explore ways to contribute, contact Dick Farnsworth of the Lab's Science & Technology Education Program, 2-5059.

For information, see LLNL K-14 student programs:
